

## Incident

Ten children were injured and taken to hospital following an accident on an inflatable slide at an event in Woking on 3 November 2018. One suffered a broken pelvis. HSE is investigating the incident.

Operators of inflatable play equipment are reminded to:

- follow HSE's freely available [guidance on their safe operation](#)
- make sure that their device or devices meet the standards set out in [British Standard BS EN 14960: 2013 Inflatable play equipment. Safety requirements and test methods](#)

Operators unable to comply with the guidance or the British Standard should not operate their inflatable play equipment device or devices.

HSE will take strong enforcement action where those operating devices are not following the standards outlined in our guidance.
